

DiPEE Midi-Pyrénées workshop

Transdisciplinary meeting on the theme: « Behaviour and the Environment »

December 2, 2016

Amphi 3, bâtiment Olympe de Gouges, Université Toulouse Jean-Jaurès

- 8h30** **Welcome coffee**
- 8h55 – 9h00** **Introduction : Ingela Alger (DiPEE CNRS) and Morgane Gibert (AMIS)**
- 9h00 – 9h35** **Séverine Jean (ECOLAB)**
Response to multi-stress exposure in fish: from molecules to organisms
Discussant: Xavier Mata (AMIS)
- 9h35 – 10h10** **Julien Cote (EDB)**
Ecological implications of behavioural syndromes: the example of an invasive fish
Discussant: Micky Tackx (ECOLAB)
- 10h10 – 10h25** **5-minute presentations :**
- **Nancy Saenz Oyheregy (AMIS)**
First Paleogenetic Approach of two European Neolithic Collective Burials: Mont Aimé I and II (Paris basin)
 - **Nicolas Bonneton (TSE)**
An economic approach to shared ethical concerns
 - **Félix Pellerin (EDB)**
Influence of inter-individual variation in dispersal behavior on species range shift under climate change
 - **Jérémy Souchet (SETE)**
Altitudinal colonization and adaptation to hypoxia in reptiles
- 10h25 – 10h50** **Coffee break**
- 10h50 – 11h25** **Rémi Bénos (Géode)**
Beyond the starry sky: the issues of the nocturnal environment protection
Discussant: Marion Desquilbet (TSE)
- 11h25 – 12h30** **Jörgen Johnsson (University of Gothenburg)**
Behaviour and the Environment - fishy perspectives of a behaviour ecologist

12h30 – 13h30 Lunch

13h30 – 13h45 5-minute presentations :

- **Joey Allen (ECOLAB)**
Allelopathic interactions involving benthic phototrophic microorganisms
- **Alyzé Hoffmann (TRACES)**
Paleoparasitology contribution to the understanding of the spread of Neolithic in South Western Europe
- **Mélodie David (GEODE)**
Apport d'une approche multi-sources pour la reconstitution de la trajectoire d'évolution de la Garonne toulousaine

13h45 – 14h20 **Vincent Ard (TRACES)**
Giants in the landscape. Monumental sites and construction of territories during the Neolithic in West-Central France
Discussant: Didier Galop (GEODE)

14h20 – 14h55 **Audrey Trochet (SETE)**
Effects of climate on ectotherm populations in France and in the Pyrenees Mountains
Discussant: Joël White (EDB)

14h55 – 15h15 Coffee break

15h15 – 15h50 **Patricia Balaesque (AMIS)**
Hearvolution: evolution of hearing abilities and sensitivities in human and non-human primates
Discussant: Virginie Stevens (SETE)

15h50 – 16h25 **Ingela Alger (TSE)**
Evolutionary foundationsof morality
Discussant: Florent Hautefeuille (TRACES)

16h25 – 17h00 Discussion

Comité scientifique :

Ingela Alger (CNRS)
Laetitia Buisson (ECOLAB)
Éric Chauvet (CNRS)
Marion Desquilbet (TSE)
Didier Galop (GEODE)
Morgane Gibert (AMIS)
Frédéric Magné (EDB)
Christine Schrive (CNRS)
Virginie Stevens (SETE)
Nicolas Valdeyron (TRACES)
